

Graduation Video

### ***Alex Gavin Productions***

specializes in Graduation Video and other live stage performances. We pay close attention to detail and work closely with each school to produce the most desirable video.

We have built a reputation for doing it right. Here are just a few examples of what makes a good video from **ALEX GAVIN PRODUCTIONS...**

***Cameras zoomed in at the right time, getting the important parts of the ceremony.***

***Panning the entire audience and stage so you can see ALL of the graduation participants and your relatives and friends as they cheer you on.***

***Good Color and Clear Picture with good close ups so you can recognize all of the graduates***

***Good sound and music feed from your school band and vocalists***

***Good editing***

Our crew uses a strategy that ensures that the entire event is covered in the best way possible. We use the latest in digital technology for the best picture and audio quality. All of our videos are edited using a Non-Linear computer editing system. This allows for precise and perfect editing. In addition, we put extra features into our videos that other videographers don't.

We come to your rehearsals to plan for camera and audio placement.

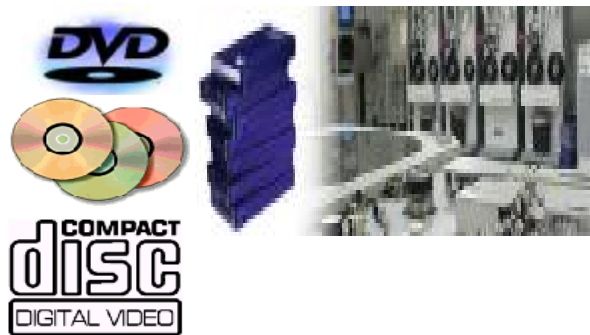

Each video is delivered in a full color custom video box that has the school logo/picture on the video packaging.

Deluxe credits on the opening & close of your video.

We have a professional audio technician that works all of our productions. This ensures the best sound possible.

As you may need many copies of your video, we are also equipped with a full service duplication lab, capable of reproducing any quantity of duplicates, from VHS to broadcast.

DVD copies are available by request.

GRADUATION VIDEO

by ***Alex Gavin Teleproductions***

Our graduation video is the finest you will see. Your event will be taped with three or four cameras and edited live as the ceremony goes on. Quality broadcast equipment is used for the best video you can get. Special effects such as double exposure and split screens are added to capture the action that can not be seen with just one camera.

We will have a large screen monitor on site so you can see the video as it is being produced during the graduation.

Parents, friends and relatives, if your camcorder doesn't work, you run out of tape or batteries or you missed some shots... ***We've got you covered !!!***

**Alex Gavin Productions** will have up close stage access during the graduation ceremony so you will have an excellent video for years to come.

Video Production

**(251) 316-4138**

To show our dedication, we will create a custom demo for your school. We will come to your school and record any class event of your choosing. The footage will be creatively edited. . This demo is free of charge with no obligations or commitments.

We offer many other school related services:

#### ***Photo To Video Transfer***

*We can transfer your photos to video or DVD complete with special effects, dissolves, titles and your choice of music to create a memorable video that will be treasured for years to come. Student Projects - School History Photos - Special Event Photos - Camcorder Footage can be included in your school video for a large screen presentation. Great for gift giving to relatives and friends.*

#### ***Technique Videos***

Video is one of the best methods of teaching. We can help you produce one, or a series of instructional or technique videos. Videos can be sold, or given away.

We can sale directly to parents, so that there is no out of pocket expenses or sell directly to the school (a great fundraiser)..
